Abstract: In recent years, as an ideological education method, the soul casting project has been adopted by more and more schools, which has been widely concerned and studied. However, the selection of teaching materials as the basis of the soul casting project, there is still a lack of systematic research. This study takes the selection of the textbook “Soul Casting Project” of the three subjects, and aims to take the selection of the demining hero Du Fuguo as an example.

Keywords: Unified compilation of three subjects; Soul casting project; Du Fuguo’s deeds; Material selection research

1. Introduction

According to a document issued by the Teaching Materials Bureau of the Ministry of Education, the goal of covering all the unified textbooks for universities, primary and secondary schools will be achieved by 2025. “The Soul Casting Project of the three subjects” is an important measure launched by the Ministry of Education to solve the problems of the uneven quality of teaching materials and the lack of teaching needs under the background of comprehensively promoting the national standard language education.

At present, six provinces and autonomous regions, including Xinjiang, Tibet and Guangdong, have begun to use the three subjects, which plays an important role in improving the quality of education and promoting the realization of the fundamental task of cultivating moral education. However, in the process of the construction of the unified teaching materials for the three subjects, there are still some problems, such as the selection of teaching materials is not scientific and reasonable, and it is difficult to guide students to think deeply. Therefore, how to carry out reasonable selection of materials, and how to play the role of casting soul, become an urgent problem to be solved.

2. Take the deeds of Du Fuguo as an example of material selection research

2.1 Background and significance of the selection of Du Fuguo's deeds

In the selection of the textbook “Casting Soul Project” of the three subjects, the textbook compilation team selects a series of deeds of Chinese and foreign famous figures and outstanding groups, aiming to guide primary and middle school students to shoulder the sense of responsibility of family, country and the world, carry forward the traditional virtues of the Chinese nation, and broaden the students' international vision.

Du Fuguo is a demining hero. He works in reverse under dangerous conditions and uses his body to protect his comrades. His heroic deeds are worth the majority of students, encourage them to stand up in danger, not afraid of difficulties, not afraid of sacrifice. As a soldier, Du Fuguo has demonstrated his loyalty and dedication with his own actions. His deeds help to cultivate students’ patriotism and national pride, and can help them better understand the duties and missions of soldiers.

From the perspective of teaching objectives, the textbook compilation team guides students to consciously practice the socialist core values with the help of Du Fuguo’s deeds. Further, let the students have a deeper understanding and impression of the noble quality of soldiers, brave and tenacious mental outlook and fine tradition.

The selection of Du Fuguo’s deeds has a very high background and significance in the “soul casting project”. Through vivid examples, the textbook compilation team further promotes the connotation of socialist core values to primary and middle school students, improves their national awareness, national self-esteem and national self-confidence, and helps to form a good national spiritual outlook.

2.2 Methods and standards of material selection for du Fuguo’s deeds

In order to ensure the accuracy and effectiveness of the material selection, we conducted an in-depth study on the many heroic deeds involved in the soul casting project, and finally selected the deeds of the demining hero Du Fuguo as the material selection case. So, what kind

the selection criteria do Du Fuguo's deeds meet, and how do we select the materials?

Du Fuguo's deeds has a distinct background and realistic significance, with a wide range of social value. He buried thunder on the wild mountains, took his ancestors away from danger to a higher level, and became a model for the army and the people and even the whole society.

Du Fuguo's story have touching emotional value. In his place, the mountains were high and dangerous, and long roads, but he always worried about the people's lives and safety, not only to find mines buried deep in the earth, but also to protect his officers and soldiers. His heroic deeds were remembered by the vast majority of the people and praised by later generations, forming a strong atmosphere of touching stories.

Du Fuguo's story is of profound significance in education. Although Du Fuguo sang all the way, he was not greedy for vanity, did not make public, silently buried thunder, with practical actions to practice their beliefs. As a typical representative of the "soul casting project", his image plays an important exemplary role in promoting people's spiritual quality, and also plays a positive role in promoting the construction of socialist spiritual civilization.

Finally, from the material to the content expression specification, from the material selection standard to the requirements of the display effect, we have achieved standardization, systematization and perfection. These strict requirements and operations also provide an effective theoretical basis and practical example for the material selection.

2.3 The effect and significance of material selection for Du Fuguo's deeds

In the process of material selection, the effect and significance of the story are quite important. By selecting the appropriate deeds, students can deeply understand the theoretical knowledge, stimulate their interest in practice, improve their comprehensive quality, so as to do a good job in self-education. Du Fuguo's deeds have great educational value and can help students to form the correct values and outlook on life. Through the deeds of Du Fuguo, the students can inherit the spirit of patriotism, let the students realize that everyone should assume their own responsibilities and missions, even in the face of difficulties, they should not retreat, but to have the courage to face up to the difficulties, perseverance and patience.

To sum up, Du Fuguo's deeds not only have great educational value, but also verify the truth of "selecting materials is educating people", which will certainly help students to form a correct outlook on life and values, and improve their comprehensive quality.

3. The application of du Fuguo's story material selection in the "soul casting project"

3.1 The selection of Du Fuguo's deeds into the textbooks of the three subjects

Du Fuguo is a brave and fearless demining hero. His deeds have inspired generation after generation and become a role model of The Times and the young people. The unified textbook of the three subjects integrates the selection of Du Fuguo's deeds, which not only helps to carry forward Du Fuguo's heroic spirit, but also contributes to the students' ideological and moral education.

In Chinese textbooks, through Du Fuguo's indomitable spirit, students can be encouraged to not fear, not give up in the face of difficulties, and unswervingly pursue their goals. Under such education, students can form an indomitable spirit, be more brave and confident, and strive for the realization of their own value of life.

In the history textbook, Du Fuguo's story can stimulate students' love for the national history and military history, let them know the heroic deeds of various periods, and then cultivate students' love and loyalty to the country and the nation, and make continuous efforts for the construction and prosperity of the motherland.

In the ideological and moral education, through Du Fuguo's selfless dedication spirit, stimulate students' sense of social responsibility and love, cultivate students' the spirit of thinking for others and willing to help others, let students get close to the society, feel the society, care for the society, and become pillars of talent in the growth.

3.2 The influence of the selection of Du Fuguo's deeds on students' soul casting

As an important link of the "soul casting project", the selection of materials not only needs to efficiently transfer educational information efficiently through reasonable material selection, but also needs the content to arouse students' resonance and reflection, improve students' moral quality and cast students' soul, so as to promote the healthy development of students' body and mind. In this respect, the story of the demining hero has become a good choice.

Du Fuguo's deeds reflects the multiple virtues such as respect, responsibility and courage for life, which can become an important resource for teachers to conduct moral education to students, especially for modern young people who are vain and pursue shallow.

In educational practice, Du Fuguo's deeds are widely used in school education and teaching. Students are shown with their moral and spiritual pursuits through cartoons, pictures and short stories, so as to guide students to enhance their own moral cultivation.

By walking into Du Fuguo's spiritual world, students deeply understand the moral and spiritual content shown by Du Fuguo's deeds,

which are subtly influenced by them, so as to reflect on themselves and improve their ideological realm and humanistic quality.

4. Design and practice of the new education mode of “soul casting project”

By studying the improvement and innovation of the education mode of “casting soul project”, this paper discusses how to better carry the spiritual connotation of “casting soul project” in the future education. The design of the new education mode of “casting soul project” first improves the curriculum setting, aiming to guide students to actively participate in practical activities and feel the charm of the thought of “casting soul project” through concrete practice. In terms of the course content, the students are guided to understand the background, history, concept and spiritual connotation of the soul casting project by taking the deeds of the demining hero Du Fuguo as an example. Through such vivid cases, students can deeply feel the intrinsic value of the concept of “soul casting project”, and encourage them to pay attention to the integrity, respect for learning, diligent practice, optimistic and positive qualities in their daily life.

Improve the assessment method, and guide students to participate more actively in practice, communication and reflection. We should not only pay attention to the examination of knowledge, but also pay more attention to the cultivation of students’ independent learning and practical ability. Various assessment methods are used to express learners’ achievements and tracking in the learning process, such as case analysis, classroom discussion, report, oral presentation and other diversified methods.

In practice, students are guided to participate in community service, family service, volunteer service, knowledge sharing and other social service projects, so that they not only realize their own value, but also create more value for the society. The practice of the new “soul casting project” education mode proposed in this paper has proved that it has wide applicability and practicability in practice.

5. The significance and value of the education of “Casting soul Project”

“Casting the soul project” is an important project aimed at cultivating excellent talents, inheriting the national spirit and carrying forward the patriotism. The significance and value of education can not be ignored. By selecting the deeds of excellent characters as teaching cases, students’ enthusiasm for learning can be stimulated and encourage them to learn the spiritual quality and behavior of excellent characters. Secondly, the development of the soul casting project can enhance students’ patriotism, strengthen their cognition and feelings of the motherland. Strengthening the diversity of teaching forms, innovating educational methods and means, enhancing the interest and interactivity of teaching, can better stimulate students’ learning enthusiasm and development potential, and expand students’ vision and knowledge.

In this process, required to achieve all-round, multi-level casting soul engineering education, and gradually into a wider social education system, let more people can benefit, contribute more strength, make the casting soul project to advance and development, to build a more civilized, harmonious and happy society to make greater contribution.
